No Race Trouble at Crawfordsville-Gambler Swindled Out of \$6,000-Mortally Wounded in a Cutting Affray.

Business Men of Jolietville Settle an Old Grudge with a Duel to the Death.

Special to the Indianapolis Journal. LEBANON, Oct. 1 .- A! Hoover and Alex. Lane, of Jolietville, twelve miles east of this city, engaged in a deadly combat this afternoon, as a result of a former quarrel. No Trouble in the Crawfordsville Schools. Special to the Indianapolis Journal.

CRAWFORDSVILLE, Oct. 1 .- The report sent out over the country in regard to the colored schools here is somewhat untruthfully mixed. Prof. Allen, principal of the colored schools, resigned some time ago in order to accept a position on the Freeman, a paper at Indianapolis. He gave the school board the regular notice of two weeks, that at the end of this time he would quit teaching the colored schools for the reason given above. At the end of the two weeks he gave up the school, but still claims his home here, where he will vote. There are rumors being circulated against him, all of which are untrue, so far as can be ascertained. As the trustees had been unable to secure a teacher to take the place of Mr. Allen, fifteen colored pupils were distributed among the white pupils until a teacher could be secured. There is no excitement, over this cured. There is no excitement over this, and half the people in town do not know that this has been done. The only excitement is in the brains of a few Democrats, who are always afraid that the colored race will surpass them in intelligence.

Earlham College Celebrates. Special to the Indianapolis Journal.

RICHMOND, Oct. 1.-Late last evening was the occasion of a new item in the affairs of Earlham, when the western extension of the Richmond electric street-car system was completed. The first car passed over this division last night at 6:30. It carried many prominent citizens of West Richmond, together with officers of the electric company. President Shaffer was among the number. The completion of this line means a great boom to the college. In fact, it will bring all West Richmond, and especially the college public, in direct con-nection with all parts of the city east of the river. Last night the college in-dulged in a great jollification. At halfpast 5 o'clock the students en masse were at the track with college colors flying and the large Earlham banner planted in their midst, ready to received President Shaffer and his company. Much enthusiasm was manifested by students, citizens and vistiors. To-day cars have been running regular, and the traffic over this extension will be heavy the coming week, owing to the Friends' Yearly Meeting in East Richmond. The college authorities are very much pleased with the advantages which this new electric-line will bring to Earlham.

Fatally Cut by His Own Bone. Special to the Indianapolis Journal.

LAFAYETTE, Oct. 1 .- John Chenowith, s carpenter, of this county, met his death in a very peculiar manner. The scaffolding upon which he was standing tumbled down, throwing Chenowith to the earth. A small square he had in his hand at the time of the fall penetrated his left breast just above the heart. His right arm was broken and the bones badly shattered. The slivered bones were forced through the flesh, and one end of the bone striking him near the shoulder, cut an artery in the upper part of his arm, from which hemorrhage he bled to death in a short time. There was another man on the scaffold with Chenowith at the time of the accident, but he fortunately escaped any serious injury beyond a lively shaking up The dead man leaves a widow and five chil-

He had been with a fishing party up in Michigan for two or three weeks, and hence his late appearance to secure his son's release. This he has not done as yet, however, for want of ready money or an acquaintance here who knows of his responsibility; but he is reputed to have 1,600 acres of land in Henry and Rush counties and to be worth a great deal in live stock, and, of course, he will secure bond for his son.

Special to the Indianapolis Journal. EVANSVILLE, Oct. 1 .- Two months ago M. H. Justus, a merchant at Oakland City, won \$7,500 in a gambling transaction. He went after it a week ago, and returned to Evansville yesterday and took in the sights last night. Unconvicted Prisoner Seeks to Enjoin the Distribution of His Photographs. Special to the Indianapolis Journal.

BLOOMINGTON, Oct. 1 .- A man named Edwards, who is in the county jail in this city, charged with pocket-picking, to-day asked Judge Sample, of the Circuit Court, to grant him an injunction to restrain the authorities from distributing a photograph of him yesterday taken at the sheriff's order and against his will. Edwards claims that he is not yet convicted, and that until he is the sheriff has no right to send his pictures abroad. The sheriff claims that he took the picture in order that he might send it to the warden of the penitentiary to see if Edwards had ever been an inmate. The case is one that is of general importance.

MOMENCE, Oct. 1 .- The novel interstate hay palace opened here yesterday. The building is 206 feet in length and 166 feet wide in the center. The main hall is a perfect circuit 103 feet in diameter, flanked on the four sides with wings. A circular gallery 18 feet wide sweeps entirely around the main hall. The walls are built entirely of baled hay, with just enough baled straw to make a pleasing contrast in shading and color. The primary object of the exposi-tion is to make a display of the varied products of eastern Illinois and western Indiana, which will include products of the farms, factories, forests, mines, quarries, and of the arts, domestic skill and the accomplishments of the people of the district in music, oratory and manual training. STAGE ROBBERIES.

Mail Pouches Captured by Highwaymen in

Arkansas-Passengers Unmolested. EUREKA SPRINGS, Ark., Oct. 1 .- Road agents held up the Harrison and Eureka Springs stage at midnight last night. The driver was commanded to halt by one of the highwaymen, who covered him with a shotgun, while his masked comrades, revolvers in hand, stepped to the door of the stage and interviewed the passengers, of whom there were two. They were not mo-lested, however. Taking the mail pouches with them, the robbers disappeared in the woods, first commanding the driver to go ahead. As this stage usually carries a heavy mail, it is thought they made a good haul. This is the third time this stage has

been held up.

This was one of the prettiest races seen in some time. Diablo shot to the front when the flag fell, and, securing a lead of two lengths, set a slow pace, followed by Los Angeles, a length before Raceland, who was a length in front of Firenzi, a length away. They ran in this order to the upper turn, when Los Angeles fell back and Raceland took second place. Entering the stretch Diablo still had a lead of a length, followed by Raceland and Los Angeles. When well straightened out for home Firenzi moved up, and at the beginning of the last quarter was but a length behind Diablo and Raceland, who were necks apart. Then Murphy went to the whip and the mare shot forward. From that on it was a beautiful drive between Raceland, Firenzi and Diablo, and amid the wildest kind of enthusiasm the three passed the finish in the order named, with Raceland a neck to the good, while Firenzi had a neck the best of Diablo. Time, 2:11.

Sixth Race-Selling; one mile. Sam Wood won by a length from Esquimau, who beat Gunway two lengths for the place. Time, 1:4112.

Hard Day for Favorites at Latonia. CINCINNATI, Oct. 1,-Another large crowd was in attendance at the Latonia races today, and betting was steady and spirited. First Race-Purse for two-year-old maiden fillies, to carry 110 pounds; fourfurlongs, Little Midget was first away, but was passed by Godiva, who kept her lead until well down the stretch, where several others alternated in the lead, but finally Little Annie came out of the bunch and won under the whip by a length and a half; Rosedell second, Godiva third. Time, :51. Second Race-Selling; purse; for threeyear-olds and upward; one mile and twenty yards. Silver Lake had the best of the start, but soon gave way to Joe Walton, who led to the head of the stretch,

where Gynnast came up, but in a whipping finish, Nina Archer ran first, a head in front of Gymnast, Meckie H., third. Time, Third Race-Selling; purse; for three-year-olds and upward; one mile. Dyer led at the start, but was almost immediately headed by Pritchett, who continued to lead during the remainder of the distance, winning by two lengths; Dyer and Neva C., running second and third respectively.

Fourth Race-Purse; for three-year-olds and upward; one mile and seventy yards. Marchma was first at the start, and, though headed at the stand, she again showed in front in the stretch, and in a driving finish won, without being touched by whip or spur, by a neck; Rosemont second, Spectator third. Time, 1:4634.

Fifth Race—Selling; purse; for two-year-olds; five furlongs. Paoli led from the start to the stretch, where Tom Jones and Reveal came to the front, Reveal winning by a length and a half; Tom Jones second, Frank D. third. Time, 1:0312.

Your money is promptly returned, if it fails to benefit or cure in all diseases arising from torpid liver or impure blood. No better terms could be asked for. No better remedy can be had. So positively certain is it in its curative effects as to warrant its makers in selling it, as they are doing, through druggists, on trial!

IMPROVEMENT IN Patented Sept. 24, 1889, and Feb. 25, 1890. This improvement dispenses with the large suction plate in common use for partial dentures. It will also supplant "bridge work" in large measure, which latter is difficult to fit and involves the destruction of valuable teeth. The plates are very small, about one-quarter to one-eighth the usual size. Being constructed on true mechanical principles, they fit the mouth with perfect accuracy. This system applies to all cases having one or more natural teeth remaining on either jaw. The patent granted February 25, 1890, is for an improvement in metallic plates. The best material for this purpose is gold. Other materials have a special utility, but gold is to be preferred. With this method a perfect fitting gold plate can be made which has never been accomplished before, owing to the warpage that invariably occurs in soldering the clasps and teeth to the plate.
